

Shooter's Shirt Logo Size/Space Examples

This will give the sponsor and idea of what the actual sizes of the total space for their logos will be. The logo will need to be a fraction smaller than the actual outside dimensions to ensure that all sponsor's logos are recognizable and uncrowded. These sizes are based on square inches and not a particular length and width. All space is calculated on a square and can be any combination of height x width.

These are actual size

2.5sq''

5sq''

16sq''

7.5sq''

10sq''
